

# RAYEN BEN AMOR

## WEB DEVELOPER

Tunisia, Nabeul | [benamor.rayen@protonmail.com](mailto:benamor.rayen@protonmail.com) | <https://github.com/rynBenAmor> | <https://rayen-ben-amor.vercel.app/>

### SUMMARY

I'm a full-stack web developer based in Tunisia with a passion for turning ideas into real, working software. I've built and maintained applications using Django and Vue.js, constantly looking for ways to streamline workflow. While Python is my main strength, I'm always eager to learn new technologies and thrive in collaborative environments, especially alongside a team of creative, like-minded developers.

### TECHNICAL SKILLS

Django	HTML/CSS/JS	NGINX
Rest API	Vue.js	Linux
Python	Electron.js	GitHub
SQL		

### PROFESSIONAL EXPERIENCE

Web Developer and IT Support Specialist, Sté Fathi Ben Slimene

Sept 2024 - present

- Developed and deployed a fully custom e-commerce platform from scratch, integrating complex data schemas, mailing systems, automated web scraping, and role-based access control driving higher engagement and sales.
- Optimized infrastructure by configuring a bare-metal VPS with advanced Nginx setups, improving performance, security, and scalability.
- Built a lightweight CI/CD pipeline with Bash scripting to automate deployments, migrations, and updates cutting downtime and manual intervention.
- Automated product data collection using Python/Selenium scrapers and CSV import pipelines, reducing catalog creation time and minimizing human error.
- Delivered IT support for Windows systems, hardware, and software issues, ensuring business continuity.
- Improved operational efficiency by researching, proposing, and implementing technical solutions aligned with business goals.
- Collaborated with stakeholders to gather requirements, perform testing, and deliver reliable, user-friendly systems.

Web Developer, Artiplast

Feb 2025 - present

- Built and deployed a serverless Vue.js showroom website on Vercel to showcase products and boost the company's online presence.

Web Developer, ATGT Tunisie

Feb 2024 - June 2024

- Developed a blog platform using Wagtail CMS as part of a capstone project, sparking a passion for Django and full-stack web development.
- Gained practical experience deploying applications on Virtual Private Servers.

## Personal Projects & Exploration

- Experiment with Electron.js to build cross-platform desktop apps and utility tools, expanding technical expertise beyond professional projects.
- Regularly explore new frameworks and deployment strategies to stay ahead of industry trends.

## EDUCATION

### Faculté des sciences Tunis (FST), ICT degree 2021 - 2024

Graduated with near-excellent grades with a bachelor's degree in Information technology and Communication

### Baccalaureate, Computer Science specialization 2020

Graduated high school with a specialization in Computer Science
