

RAYEN BEN AMOR

WEB DEVELOPER

Tunisia, Nabeul | benamor.rayen@protonmail.com | <https://github.com/rynBenAmor> | <https://rayen-ben-amor.vercel.app/>

SUMMARY

I'm a web developer with a more than decent experience. Most of my work centers around Django and Vue.js, where I focus on creating smooth, efficient applications and automating repetitive tasks to save time and reduce errors. Python is my strongest tool, but I enjoy exploring new technologies and finding creative ways to solve problems. I love working with collaborative teams and professional environments.

TECHNICAL SKILLS

Django	HTML/CSS/JS	NGINX
Rest API	Vue.js	Linux
Python	Electron.js	GitHub
SQL		VPS deployment

PROFESSIONAL EXPERIENCE

Web Developer and IT Support Specialist, Sté Fathi Ben Slimene

Sept 2024 - present

- Built a custom web platform delivering personalized content and user-specific features through dynamic data models, automated mailing, and role-based access.
- Deployed and secured a bare-metal VPS with Nginx tuning, boosting performance and reliability under load.
- Automated updates and migrations with a Bash-driven CI/CD pipeline, cutting deployment time and downtime.
- Collected and cleaned product data using Python (Selenium, CSV), speeding up catalog creation and reducing manual work.
- Supported daily operations by resolving hardware/software issues and optimizing internal workflows.
- Collaborated with business teams to align technical features with real operational needs.

Web Developer, Artiplast

Feb 2025 - present

- Built a sleek static Vue.js showroom that let clients easily browse and share product information, strengthening the company's digital presence and supporting early sales growth.

Web Developer, ATGT Tunisie

Feb 2024 - June 2024

- Developed a blog platform using Wagtail CMS as a final-year project, which solidified interest in Django and full-stack development.
- Deployed applications on Virtual Private Servers, gaining hands-on server management experience.

Personal Projects & Exploration

- Built and released cross-platform desktop apps with Electron.js, creating practical tools for real users.
- Currently developing a finance utility app to improve UX for a government service platform.
- Contributed to open-source Django-related packages on GitHub.
- Designed and optimized personal websites and portfolios, exploring performance, UI, and user experience.
- Regularly experiment with new frameworks, deployment strategies, and automation tools to sharpen problem-solving skills.

EDUCATION

Faculté des sciences Tunis (FST), ICT degree

2021 - 2024

Graduated with near-excellent grades with a bachelor’s degree in Information technology and Communication
